V41A - 4MP Quad HD Camera

Standard Security Camera

Using the CP Plus Ezykam+ Camera 360

4MP Quad HD Camera

Designed to represent an enhanced picture quality in full HD video so that every detail can be viewed with vivid clarity and a pixilated video feed can be avoided.

Easy to Connect

This Ezykam+ by CP PLUS does not even require installation hassles and you can easily place it on a mount, plug it in, connect to the Wi-Fi and you are good to go.

Motion Detection Alerts

This camera detects movements in the video frame and send alerts in real-time to always keep you notified about what's happening at home.

Human Body Detection

Designed to provide human detection and intelligent alerts, which means only being alerted only when the need occurs as the camera detects people as opposed to animals, passing vehicles, or other inanimate moving objects.

Privacy Mode

Using privacy mode, you can block the camera view & recording of a specific area of your choice to maintain privacy.

Superior Night Vision

Provides full-color video even in low light. Using a bigger CMOS image sensor, this camera offers a wider contrast range allowing shadows and darker areas to be illuminated with perfect clarity as the sensor with bigger pixels collects more light, and more light improves the image quality even in the dark.

View & Talk

Enables you to stay in touch with your loved ones from anywhere, meaning you can also talk while viewing the live video feed on the phone.

Alexa and Google Supported

Works with Alexa & Google Home so you can go hands-free and command the camera with your voice while enjoying the safety of a smart home.

“Alexa, show me kid’s room camera.”

“showing the kid’s room view.”

Specification - V41A

Feature	Specifications
Image Sensor	1/2.8" 4MP CMOS sensor (0.9071 cm)
Compression	H.265
Resolution	2560 x 1440
Minimum Illumination	0.01 Lux
IR cut filter	Supported
Viewing Angle	(D) : 101.6°/(H) : 85.5°/(V) : 46°
Frame Rate	20fps
Mirror/Flip	Supported
View Mode	HD & SD
Stream	Dual Stream
Lens	4 mm lens
Audio	Two Way Audio
Audio Input	Supported (Built in Mic)
Audio Output	Supported (Speaker)
Audio Compression	G711
Audio Compression algorithm	u-law algorithm
Audio Compression Rate	57% (uLaw)
Recording Method	Event recording/continuous recording
Protocol	TCP/IP
Wireless Frequency	2.4~2.4835GHz
Wireless standard	IEEE 802.11 b/g/n

Feature	Specifications
Wireless Security	WEP,WPA
Motion Detection	Supported
Configurable Region	Supported
Antenna	Built-in FPC antenna
Antenna gain	2~3db
Work with Alexa	Supported
Work with Google Assistant	Supported
Private mode	Supported
Human body Detection	Supported
Reset Button	Supported
Weatherproof Standard	IP66
IR Distance	IR up to 15 Mtr.
No IR LEDs	8
SD Card	Supported (up to 128GB)
Notification Method	Mobile phone push
Working temperature	-10°C ~ 50°C
Power Supply	5V, 1A
Power consumption	5W
Body Material	ABS+PC
Dimensions	157 x 70 x 70 MM
Weight (Net weight)	224g

Applications

Kids Safety
