## 3+1 CCTV Cable (Premium Cable)

### Functions

#### Solid Annealed Bare Copper Conductor

The use of a bare copper conductor in energy transmission installations to maximizes thermal and electrical conductivity, and to transmit energy with optimal efficiency.

#### Increased Protection

The superior quality of the insulator used in this cable provides greater prevention against the electromagnetic force emitting from the current.

#### Renewed Capacity

The current carrying capacity of a cable is directly proportionate to its diameter. Keeping that in mind, this cable has been designed to carry a bigger amount of voltage.
