MCX-610 Advanced Wireless Repeater

Features & Benefits

- Supports both one-way and two-way keyfobs*, remote commander and all wireless PowerCode detectors
 - Compact and easily installed
 - Mains powered with 36 hours backup battery (rechargeable)
 - Front and back tamper protected
 - LED indications for power failure, activity and diagnostics of installations performance
 - Complies with EN and FCC
 - Up to 50 different devices can be enrolled to the repeater
- *Only with partitions versions or newer

The MCX-610 extends communication range between the PowerMax systems and other PowerCode transmitters including one-way and two-way keyfobs* and PowerCode detectors. The MCX-610 receives alarm, status and control messages from the wireless devices and repeats these messages to the control panel.
